## SAMPLING

The initial sampling has been done by the customer.

The sampling for the test has been done drawing casually part of the sample in our possession.

## DECLARATION

The test results of the present report are related exclusively to the tested sample.

The present test report cannot be partially reproduced without the authorization of CSI managing Director.

The uncertainties are estimated as extended uncertainty obtained multiplying the standard uncertainty by the coverage factor k corresponding to a confidence level of about 95%. Normally, this factor = 2.

This is an English translation of the report 1305\FPM\FDC\16\_01.

## PERFORMED DETERMINATIONS

### 1) DETERMINATION OF THE OVERALL MIGRATION

Food simulant	Contact conditions
Demineralized Water	10 days at 40°C
Ethanol 10% v/v	10 days at 40°C

Migration test was carried out by **Total Immersion**.

SURFACE (dm<sup>2</sup>): 1; VOLUME (dl): 1

LOD (limit of detection): 1 mg/dm<sup>2</sup>
